SUMMARY

Full Stack web developer with hands-on experience in building scalable web applications using MERN stack and Next JS.

SKILLS

Language: Javascript, Typescript, Python, Java

Tools: Node, Express, React, Redux, Next JS, MongoDB, Mongoose, PostgreSQL, TailwindCSS

PROJECTS

Connect - Social Media App

Mar 2026 - Apr 2026

- Developed a full-featured social media platform using the MERN stack, enabling post creation, commenting, reactions, stories, friend requests, and real-time messaging.
- Built scalable REST APIs, authentication, and responsive UI components to deliver an interactive and seamless user experience.
- Live | Code

EasyShop - ECommerce Platform

Jan 2026 - Feb 2026

- Developed a full-stack e-commerce platform with secure user authentication, authorization, and an admin panel using MERN stack.
- Integrated image upload, product browsing, orders and cart management, payment processing with stripe, role based access control (RBAC).
- Live | Code

Mini Youtube

Oct 2025

- Built a YouTube-like frontend web application using react and YouTube Data API with video playback, search suggestions, comments, and replies.
- Implemented debounced search to reduce the number of API calls, cached search result in redux, applied long polling in live chat to efficiently handle real-time data.
- Live | Code

CERTIFICATIONS

Full Stack Web Development with MERN

EDUCATION

Master of Science in Computer Science | BRAC University

2024 - Present

Bachelor of Science in Computer Science | BRAC University

2019 - 2023
